## And we're off!

Welcome to the first edition of Dear Neighbour, our newsletter that keeps you up to date with progress at Queen's Hill Primary School.

Construction work is now underway at the school where we are delivering a much needed £4m building contract to increase capacity to a 630 space school.

The first phase of works will involve the construction of a large extension to accommodate 8 classes, toilet blocks and a new reception area.

The existing hall will be extended to add an additional 115m<sup>2</sup> of space with associated store rooms for PE equipment.

Our final phase of work will involve re-modelling the existing reception area to form a reprographics/stock room.

Over the next few weeks, our works will comprise of the following elements:

1. Excavation and removal of excess soil off site
2. Soil stabilisation
3. Stone column ground improvement
4. Drainage work and foundations

Our normal working hours will be 7.30am to 5pm Monday to Friday.

As a result of these works you may notice an increase in construction traffic. To minimise disruption we have instructed our suppliers to avoid making deliveries between peak times at the start and end of the school day. We have put in place a traffic management plan and controls to reduce both noise and dust.

During the project we will issue further newsletters to keep you informed. We will also display information regarding the project along the site entrance.

This project is registered with the Considerate Constructors Scheme and as such we will aim to be a considerate and courteous neighbour to you whilst these works are being undertaken.
