## Taking shape...

Welcome back to Dear Neighbour, our newsletter that keeps you up to date with progress at Queen's Hill Primary School.

We are making good progress on the project which will see the school expanded to increase capacity of 630 pupils.

The 10 class extension is really starting to take shape, with the steel frame up and roof works due to commence shortly.

Over at the school hall extension, brickwork is progressing well and we are about to start on the roof there as well.

### An update on works affecting the surrounding footpaths

From week commencing 4th July we will be carrying out footpath works on the boundary of the site. This will last for 1 week, and is being carried out to ensure access to the building and maintain the stability of the footpath adjacent to Fieldfare Way. Temporary traffic lights will be in place and the footpath will be closed for this period.

Over the page we have provided a Traffic Management Plan which illustrates the alternative safe footpath routes.

The works are likely to cause some noise but these will be planned and managed to minimise the impact to the school and local residents.

We apologise in advance for the temporary inconvenience the works may cause; please contact a member of our team below if you have any concerns or questions regarding the works.

To keep disruption to a minimum deliveries will still be planned to take place outside of peak times at the start and end of the school day.

During the project we will issue further newsletters to keep you informed. We will also display information regarding the project along the site entrance.

This project is registered with the Considerate Constructors Scheme and as such we will aim to be a considerate and courteous neighbour to you whilst these works are being undertaken.

## Coming up

The project for Norfolk County Council comprises the construction of a 10 classroom extension that will allow the school to almost double its intake to accommodate the growth of Queen's Hill estate.

The Morgan Sindall project team will also modify the existing assembly hall to create more space for indoor sports activities and deliver external landscaping including a new staff car park and planting areas outside the school. Morgan Sindall holds close links with Queen's Hill Primary and Nursery School having constructed the single-storey building nearly ten years ago. Upcoming works include:

- Footpath works
- Roofworks to the new extension and sports hall
- Brick and blockwork for the new extension

If you have any questions or concerns, please contact a member of our project team (pictured below). If you can't get hold of anyone, please call our Norwich office on 01603 666669.
