

## Year 2 Summer 1 - Home Learning

A World of Possibilities

- Each week choose one activity and bring it in on Wednesday at the latest.
- You can choose to do more than one activity if you want to!
- Each week make sure that the activity is from a different box, so that you cover a range of skills.
- Please make it clear to your teacher which task you have completed for your home learning each week.
- If your homework is difficult to record in your book, take a photo and stick this in your book.
- Your home learning book will be sent home again each **Friday**.

### Maths

**Task 1** Use your new bug-catcher to survey how many of different types of insect you can find in a patch of grass. Record it in a tally chart. Can you find one other way to present your information, such as pictogram or block graph?

**Task 2** Practise counting in twos, threes, fours, fives and tens. Play a game to test yourself: Roll a dice and find the multiplication answer as quickly as you can. Record them in a table like this:

	5	4	2	6	3
x3					

### Reading

**Task 5** Choose a book you have read recently. Design a poster to persuade your classmates to read it. Tell them the best things about the book - and don't forget to make it eye-catching!

**Task 6** Ask a family member or older friend what their favourite book was when they were your age. Read it and see if you agree with their opinion. If not, why not?

### Writing

**Task 7** Write a short recount of something happened in the Easter holidays, such as a trip out. Try to include contractions like *I've*, *it's*, *she'd*.

**Task 8** Take a fairytale you know and twist it! Perhaps you want to tell the story of the Three Little Pigs from the Wolf's point of view or retell Chicken-Licken with a new set of animals!

### Topic

**Task 3** What can you find out about your class's chosen country? Where is it in the world? What is its capital city called? What languages do people speak? What kind of animals are there?

**Task 4** Design a healthy lunch menu for a school day. Think about what you have learnt about the portions of carbohydrates, vegetables, and fish/meat/dairy.

### Art

**Task 9** Create a piece of seaside artwork... You might choose to draw or paint a picture of a pier or a beach. Or you could get really creative - why not make a pattern of overlapping shells or use lots of different materials to make a seaside collage?

### **DON'T FORGET...**

- ◆ You should read your school reading book at least four times per week and record this in your diary to earn a reading star.
- ◆ Each week you will have a Big Maths task to complete. If you complete four maths activities per week and record this in your diary, you will earn a 'Marvellous Maths' stamp.
