

# Year 1

## Home Learning Autumn Term 1 2019

### Topic

Create an information poster or a fact-file about your favourite form of transport with pictures and a bit of writing. Perhaps you want to find out more about planes and trains, or want to write about your favourite toy vehicle?

### Creative

Draw and design your perfect form of transport to get to school. It might be a jet-pack scooter or a flying skateboard. The more unusual the better!

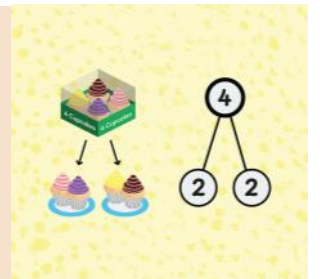

### Reading

Remember to read 4 times a week in order to receive your Reading Star. You might want to have a look at some transport books in our school library.

### Maths

Pick up your weekly maths sheet in the classroom to complete at home and don't forget to log in to Easimaths to try and complete your 4 maths activities a week.

### Science

We're looking at materials this half-term. Can you make a model out of recycled materials only? Take a photo of your creation and stick it into your home learning journal.

Online games to help with learning at home

Log into your Purple Mash account for a range of games and activities to support learning.

Try these online games to help with phonics at home
