

Year 1

Home Learning Autumn Term 2 2019

Topic

This half-term we will be learning about toys our grandparents played with. Can you interview a grown up about what they wanted for Christmas when they were in school?

Creative

Design a new toy to be sold in Smyth's Toy Shop. It might be a walking robot, a singing teddy bear or a new board game! Label it with the materials you would use to make it.

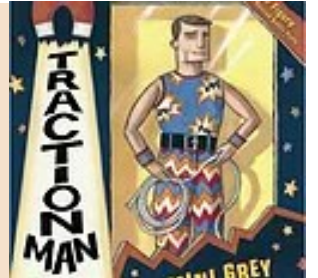

Reading

Remember to read 4 times a week in order to receive your Reading Star. You could choose stories from the library about toys. Grown-ups, please remember that you can go and change your child's book in the mornings. You will find all levelled books in the corridor opposite the Key Stage one library.

Writing

We'll be reading 'Traction Man' in class this half-term. It follows the adventures of an Action-Man style hero with an outfit for every occasion. Can you write a short story or comic strip all about yourself becoming a superhero. What would your super-power be?

Science

This year we'll be looking at changes that occur during the four seasons. At home, have a go at creating a piece of artwork with four pictures representing the four seasons. Have a think about key signs such as autumn leaves, cold weather in winter, new life in spring, warm weather in summer and changes in daylight hours.

Online games to help with learning at home

Log in to your Purple Mash or Easimaths account for a range of games and activities to support learning.
