

Year 2 Home Learning Autumn Term 2 2019

Topic

Imagine you are an astronaut. Draw your own space suit. Label which materials you would use to make the space suit. Would your space suit have any special feature?

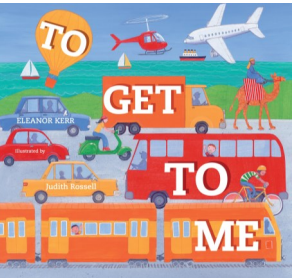

Creative

Many hot air balloons are different colours and have a range of patterns on them so they stand out in the sky. Can you design your own hot air balloon? If you are feeling creative, you could use paints, tissue paper or make a collage using old magazine cuttings!

Reading

Take a trip to the library and find a fiction book which includes some type of transport. Read the novel then re-tell the story to a friend/family member. (Look out for the library bus on 14th November and 12th December).

Writing

Imagine that you have been chosen to go with a group of astronauts to space! You land on the moon...what can you see? Write a description of your journey and what the moon looks like when you land.

Computing

Can you design a space rocket on purple mash? (<https://www.purplemash.com/login/>) Can you add labels and include any materials you have used?

Can you research a famous astronaut? What facts can you find out?

Online games to help with learning at home- see www.topmarks.co.uk
