

Nursery Social Story: My Day in School

I will come into school via the **Fieldfare Way** gate.

The fences have been marked at 2m intervals so that you can queue for the gate to get into school.

I will walk through the Early Years gate to get to my pod.

I will come into school through the Early Years door into my classroom.

I will hang up my coat and bag on a set peg before I enter the classroom. These will be outside the classroom.

I will wash my hands each day when I arrive at school for 20 seconds. I will wash my hands every time I come in from playing outside. I will wash my hands before eating.

This is what your pod might look like.

I will only sit next to someone at a table if they are my twin, or my sibling if we are in childcare.

If I stay for lunch, I will eat my lunch in the pod I am learning in.

This is the Early Years playground where I will play outside each day. I will need a sunhat and should arrive at school wearing sun cream on sunny days. I will need a jacket if it is cooler or wet.

We will keep the doors and windows open each day, but I must stay outside or inside with the grown up looking after me.

If it's not sunny, I should remember to have a jacket and my jumper in case it gets chilly inside.

I will play outside sometimes. I must play with children from my pod within the boundaries of the cones, so that everyone can keep safe.

I will put any tissues I use in the bin.
