

This Week in Reception

w/c 03/01/23

Our Learning

- This week we read 'from my window' and discussed what we could see from our own window.
- In maths we have been looking at the number 6. We investigated how we could make the number 6 and also what was one more or one less.
- We also started our new phonics groups, the children did fantastically and really impressed their teachers.

Independent Skill of the Week

We have been working on remembering what we need for each of our lessons.

News

- Some children now have reading books. Please ensure that these are returned every Monday so they can be given a new one.
- This term we are reading 'From My Window'. It would be fantastic if you could post a photo on Tapestry of the view from your window.

Home Learning Ideas

Maths - Roll a dice and then try and find one more or one less than that number. You could use counters or toys to help.

Literacy- Practise reading your reading book or sheet. If your child doesn't have one of these then practise recognising sounds around the house.

These ideas are completely optional but can be used as your Marvellous Maths or reading activity for the week.

Thank you,
The Reception Team
